REPORT OF FIREWARDS

We wish to submit to the taxpayers the following report and recommendations for the coming year.

The West Chesterfield Fire Company had fourteen alarms in 1933, seven chimney fires, four building fires and three brush fires. There were also two calls from Westmoreland.

The Chesterfield Fire Company had sixteen alarms, nine chimney fires, four brush fires and three building fires. On three occasions it was necessary to call on West Chesterfield, being unable to start the pump due to cold weather.

About the first of January we put the fire pump and extinguishers in the Stone store so as to have the equipment in a warm place. A key was left at Spaulding's so that the pump would be accessible at all times.

We placed dual wheels on the trucks to make them safer to drive and to enable us to get the trucks across meadows and soft places.

The Firewards most earnestly recommend that a suitable place be provided to house the equipment in the Center, with heat and a hose tower that will be used by both companies. Hose must be thoroughly dried when used in freezing weather and we were seriously handicapped by ice in the hose. At present we have no way to dry hose. The Center engine has been of little use for the greater part of the winter due to cold weather and the need of warm storage is very great. We ask the voters to allow us to move the old hearse house to a suitable location or build a new house.

Also we would like to suggest to the citizens that they have available water on their property to clear a path to it and clean out water holes and brooks. This would greatly help in combating fires.

Respectfully submitted,

HAROLD W. INGALLS,
PAUL M. PENNING,
CARL WHITCOMB,
Firewards.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I herein submit my first annual report as superintendent of schools.

Necessarily the statistics of this report are taken from the data given in the registers and office records delivered to me last July.

During the few months since my induction as superintendent of your schools, I have found your schools well organized and taught by an able corps of teachers.

If I were to express in a few words a philosophy of education with a psychological background, it would recognize: (1) the human mind as the most unique, delicately poised and wonderful mechanism the world has ever known; (2) its stimuli are obtained through the co-called "Windows of the Soul" often called our common senses; (3) its products are the conceptions, ideations or thoughts resulting from a coalition and cooperation of mental activity, righteous feeling and power of decision between right and wrong.

To recognize these fundamental truths and provide the best environment for their healthy function and development is the problem of public education.

Not only must we develop the so-called skills in our schools but also those fundamental requisites essential to the highest type of American citizenship. This implies the cooperation of the school, the home and the church.

The condition of business is sometimes regarded as the corner stone of our educational structure. Therefore, we can be more optimistic than we were one year ago. The indices of

the business world are on the up-grade. Let not the schools lag behind.

Finally, let us remember: (1) "The school is the agent of the state in preserving itself." (2) "Education is not a charity but a part of the national defense." (3) "Education is the author of national ideals, the moulder of the soul of America."

REPORT OF SCHOOL NURSE

Mr. F. T. Johnson,
Supt. of Schools Union No. 38,
Marlboro, N. H.,
Dear Sir:

I herewith submit my annual report as school nurse for the Chesterfield schools:

135 pupils were examined.
3 pupils showed defective vision—uncorrected.
5 pupils showed poor posture.
40 pupils were underweight.
67 pupils were in need of dental care.
14 pupils have enlarged or diseased tonsils.
3 pupils have enlarged glands.

Two tonsil clinics were held at the Keene Community hospital, 5 pupils were treated.

Two tonsil cases were treated privately.

An underweight clinic was held April 25, 1933, at the office of the New Hampshire Tuberculosis Association, Keene, N. H., 13 pupils were examined by Dr. R. B. Kerr.

A dental clinic was held at the office of Dr. Vera G. Congdon, Bellows Falls, Vt., 9 pupils were given dental care.

Six pupils have had their teeth cared for by their own dentist.

Milk and cod liver oil programs have been carried on in Spofford and the Village school, during the winter months of 1933, and again this winter.

Many home calls have been made, health conditions discussed with the parents. It is the desire of the nurse to give as much assistance as possible to the parents in arranging for correction of defects.

I wish to express the appreciation of the district to the local Red Cross chapter and Miss Alice Bennett.

I also wish to express my appreciation of the co-operation to the parents, members of the school board and teachers in the work accomplished in the last year.

Respectfully submitted,
FRANCES F. EDGETT, R. N.,
School Nurse.
